Ethics Tracker

- Software to track ethics consults
  - We use REDCap which is free to non-profit organizations
  - Online interface, behind the firewall, HIPAA compliant
  - Customizable data fields, can limit access to certain users, mobile app for data entry

- Data tracked includes:
  - Reason for consult
  - Discipline of requestor
  - Type of unit
  - Request date and response date
  - Method of request

Ethics Tracker

- Used to track all:
  - General advisements
  - Policy clarifications
  - Patient care consultations
  - Retrospective case analyses
- For Mission leaders and Ethics Council Members:
  - Organizational ethics consults
  - Values Based Discernment Processes
  - Ethics education
- All users have attended the CHRISTUS Health Clinical Ethics Intensive

CHRISTUS Region
* must provide value
Setting of Consult Request
In what unit or setting did the consult arise? If this is a Patient Care Consultation, what unit was the patient in when the consult was requested?
* must provide value
Requestor Discipline
Who initiated the request for the Ethics Consult?
For example, if the nurse called by phone, select Nursing. If the physician put in an order, select Physician.
* must provide value
Method of Consult Request
How was the Ethics Consult Request requested? For example, if you received the Ethics Consult order via a phone call, please select the "Telephone" option.
* must provide value
Presence of Ethics Consultant
How did you (the Ethics Consultant) conduct the Ethics Consult? For example, if you spoke to the family, physician, and nurse in person, choose the "In-person" option.
* must provide value

Presence of Ethics Consultant

How did you (the Ethics Consultant) conduct the Ethics Consult? For example, if you spoke to the family, phy and nurse in person, choose the "In-person" option.

* must provide value

Consult Type

1. General Advisement - Offering an opinion or clarification for informational purposes that will not formally be used as the basis for altering a specific patient's plan of care.
2. Policy Clarification - Responding to questions related to institutional policies and/or the ERDs.
3. Patient Care Consultation - A process of gathering facts, engaging various stakeholders, and identifying and applying norms in order to arrive at a recommendation intended to influence a specific patient's plan of care, usually but not necessarily documented in the patient's record.
4. Retrospective Case Analysis - Post-Discharge review of a specific case for the purpose of improving existing care processes.

* must provide value

Primary Consult Reason Category

The following "Additional Consult Reason Categories" are not required but instead provided in the case of a multi-reason consult.

* must provide value

Additional Consult Reason Category

Additional Consult Reason Category

Additional Consult Reason Category

Additional Consult Reason Category

Consult Narrative

This is optional. Briefly describe (5-6 sentences) the background of the consult that led to the requestor asking for the consult. Consider completing if the consult has unique ethical components.

Please make sure your description is de-identified. Do not put any information that can identify the patient, such as the name of the patient, physician, nurse, or other provider.

Expand

Consultant's Recommendation

This is optional. Briefly describe (5-6 sentences) your actions, recommendation, and what resolution (if any) occurred.
