

# Developing Competencies in Clinical Ethics Consultation

CHRISTINA NAMAKYDOOST

# Developing Ethics Competencies

Competencies required by clinical ethics consultation:

- ▶ Identification of value concerns and points of ethical tension
- ▶ Awareness and application of relevant moral principles, Catholic Church teaching, and institutional policies/legal statutes
- ▶ Facilitation of emotionally complex, value-laden conversations and decision-making

***Education is primarily, and often, delivered via a case based approach.***

# Impacts from Mentorship in Consultation:
